### AV & ROOM SETUP

---

**Microphones:** Judy prefers a wireless lavalier (lapel) mic.

**AV Needs:** LCD projector, which can be hooked into a laptop computer, and a projection screen large enough for all in the audience to see clearly. If you do not have a rear projector, please place the screen and projector to the side of the stage so they do not block the view of the audience.

**Stage:** A platform in the center front of the room is preferred. Judy does not need a podium but does need a small draped table for her various presentation materials.

**Audience Seating:** Classroom or theater style with angled or chevron-style rows is first choice. A- U- or V-shaped seating is second choice. Individual round tables are least desired. If Judy is speaking after a meal service, please allow time to ensure servers are not clearing dishes or serving desert or coffee during the presentation.

**Recording:** Audio or video recording is allowed with permission and a fee for licensing will be assessed.
